

Product News – Press Release

Langasite based Piezoelectric Components

offer many advantages over quartz crystal products. Since recently AXTAL Products is the exclusive representative of FOMOS, the leading manufacturer of Langasite (LGS) crystals. This enables AXTAL to offer LGS – resonators and LGS – sensors matched to customer requirements. Furthermore AXTAL designs and manufactures customized LGS – oscillators with wide pulling range as well as LGS – wideband filters as discrete and monolithic devices. For more detailed information please surf the AXTAL website www.axtal.com. Inquires are welcome by e-mail via info@axtal.com or by fax through +49 (6226) 970133.
